

WHO WE ARE

Jonathan Lee Design Services provides automotive OEMs with digital design support, prototyping solutions and project management with the capability to undertake projects from initial concept design to final delivery of a turnkey solution.

Whether seeking to engage with design professionals to complement your own design programmes or undertake a fully project managed assignment, Jonathan Lee Design Services removes the time consuming and lengthy process of sourcing skilled engineers with design studio experience to provide: **Alias Modelling, Class A Surface Modelling, Design and Styling, Project Management and Prototype Manufacture.**

Along with a collective pool of talent with decades of experience in Class A surface modelling, JLDS also specialises in **electric vehicles** possessing a deep understanding of **aerodynamics** and **lightweight structures** in vehicle design.

“ Offering a fast-response to packages of design work, we deliver a multi-disciplined, specialist service, undertaking projects from initial concept design to delivery... ”

Nick Jones

Director

+44(0) 7805 107016

nick.jones@jonlee.co.uk

With 15 years in automotive design recruitment, Nick supplies high level design and creative staff to OEMs and tier 1 companies worldwide.

Having run the recruitment departments at Futura Design (8 years) and Concept Resource (2 years), Nick understands the design process; from concept to completion, and is highly regarded by customers and contractors alike.

Nick set up the highly successful Jonathan Lee Design Services in 2014, leading a team of highly skilled modellers, designers and engineers working to deliver creative projects for major automotive OEMs.

Jon Blaze

Director

+44(0) 7970 603429

jon.blaze@jonlee.co.uk

Qualified with a BEng in Manufacturing and Business Studies from Coventry University, Jon began his engineering career working with heat transfer and power generation equipment before spending five years in process engineering management roles within automotive electronics and industrial controls businesses.

Jon joined Jonathan Lee in 2002, quickly excelling as a consultant before moving into regional management. Jon is currently Head of Recruitment Operations at Jonathan Lee Recruitment and Director of Jonathan Lee Design Services.

Gemma Gregson

Recruiter

+44(0) 1384 446144

gemma.gregson@jonlee.co.uk

After 6 years in recruitment, Gemma joined Jonathan Lee in 2013 within the account management team.

Gemma joined the Jonathan Lee Design Services business in January 2017 to source specialist design, styling, digital and physical modelling professionals for contract and permanent roles within automotive design studios globally.

With a keen creative flair and a BA (Hons) in Fine Arts and 10 years recruitment experience, Gemma is well equipped to work closely with our design clients, providing them with suitable candidates to meet all their creative design, styling and modelling needs.

Teresa Anderson

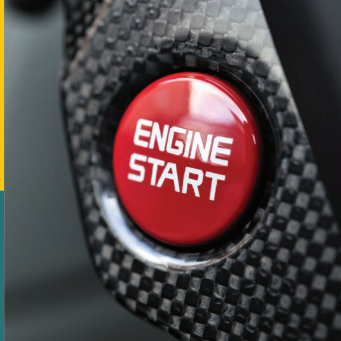

Recruiter

+44(0) 1384 446156

teresa.anderson@jonlee.co.uk

Teresa joined Jonathan Lee Recruitment in 2017, successfully placing contractors within large OEMs across the automotive sector before moving to Jonathan Lee Design Services in July 2018.

Teresa works with global automotive design studios to source creative advanced designers as well as specialist styling, digital and physical modellers on a contract and permanent basis.

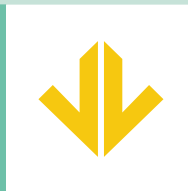

DON'T TAKE OUR
WORD FOR IT...

"Jonathan Lee Design Services was an important part of the Class A phase of the DF91 interior development. Their speed, quality and professionalism were top class and they were a real joy to work with. We will work with them again."
