Our consultants are experts in their chosen fields and have dedicated markets which they recruit for, this vertical industry focus allows us to really understand the needs of our customers and candidates. This leads to a very unique and focussed recruitment process, we don't present jobs to candidates hoping they might fit and we don't send CV's to clients without fully qualifying the suitability.

Positions we recruit for:

- Safety Engineer
- Safety Consultant
- Systems Safety
- Process Safety
- RAMS Engineer
- Safety Assurance Consultant
