ENGINEERS (IMECHE)

MAKE UK ADVANTAGES PARTNER

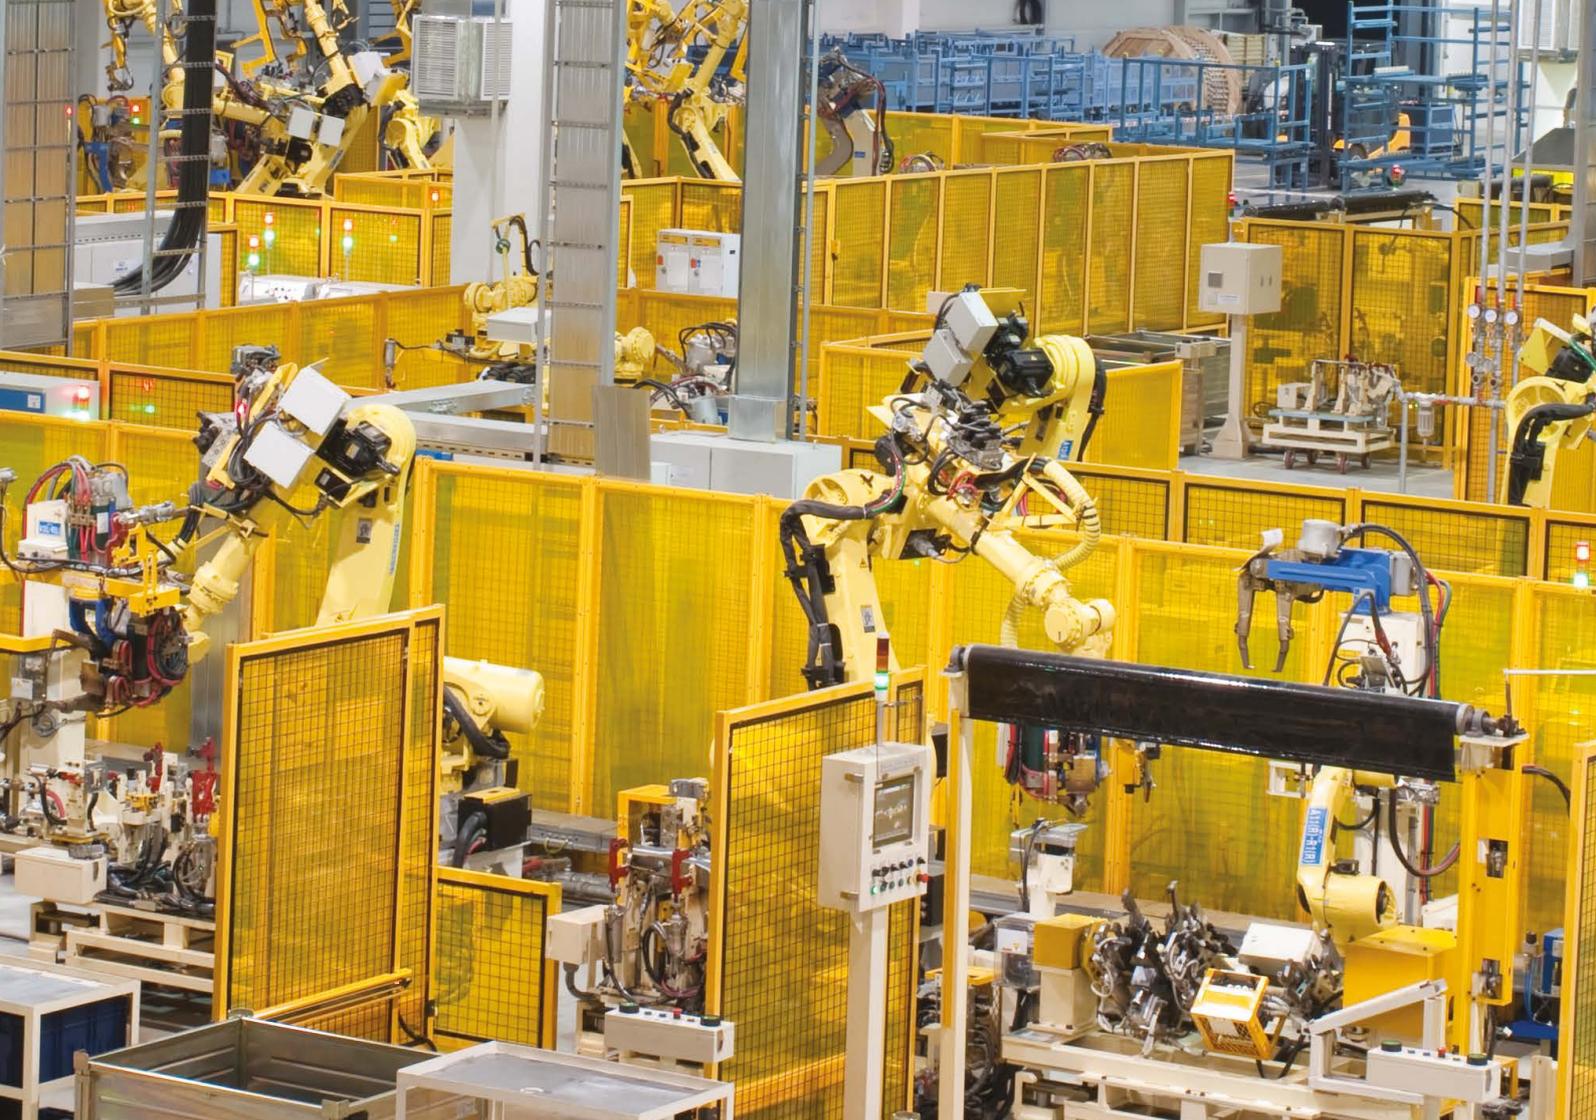

TRUSTED BY INDUSTRY

With a surge in manufacturing output and revolutionary developments within the industry, automated solutions are key to maintaining a competitive advantage.

We work in partnership with our global client base, who range from high tech start-up businesses to leading global manufacturers of bespoke machinery, automated system integrators, end of line packaging machinery providers, automated assemblers, robotic welders and equipment dispensers.

Many of our consultants are industry specialists from relevant engineering backgrounds, including automotive, electronics, mechanical, maintenance, design, quality assurance and software engineering. We pride ourselves on our in-depth understanding of the skills, experience and personal attributes required for specialist automation and controls roles over engineering, manufacturing, technical, supply chain and commercial roles.

Supporter of GAMBICA; the Trade Association for Instrumentation, Control, Automation and Laboratory Technology, MAKE UK Advantages Partner, REC accredited and industry supporter of IMechE.

DON'T TAKE OUR WORD FOR IT...

Jonathan Lee Recruitment has a good understanding of the controls and automation sector, in particular to that of systems integrators.

They have provided me with quality permanent and contract PLC/SCADA engineers. I would have no hesitation in recommending their service as a technical recruitment provider.

Automation & Digital Director
LEADING ENGINEERING SERVICES PROVIDER

The partnership we've developed has become invaluable. Not only has the team provided a full-service supply of contract and permanent staff through their managed services brand, but thanks to their talent management expert consultancy and coaching services, we now have bespoke recruitment management processes in place and senior managers who are equipped to support our talent acquisition plans. We've developed a true partnership, one I now would not want to be without.

Richard Evans
MECHATRONIC SOLUTIONS

Jonathan Lee Recruitment has been very professional in managing my recruitment in robotics as a software engineer. They proposed me a very interesting offer and now I am working in one of the most innovative companies in the world, in which I am improving my skills in my favourite field. I recommend to all people who want to find the perfect job tailored to their preferences and skills.

Robotics Software Engineer
HOME AUTOMATION INNOVATION
SPECIALIST

As a controls and automation recruitment specialist, Jonathan Lee has a great vision for identifying right people for the right job.

Their ability of flawless integration between employers and skilled persons is much appreciable - making sure that everything goes smoothly throughout the recruitment process.

Senior Mechanical Design Engineer
INTEGRATED AUTOMATED SUPPLY CHAIN
TECHNOLOGY & SOFTWARE PROVIDER

OUR COMMITMENT TO YOU

Jonathan Lee Recruitment is committed to delivering best-in-class recruitment and talent management services to the automation and controls sector. Taking the time to really understand your business needs and priorities, we adopt a partnership approach to help achieve your talent acquisition plans. We present the most relevant candidates for your needs, and our tailored solutions are aimed at adding value and contributing to your company's future success.

Our partnering and personal approach takes into account the softer issues of recruitment, providing you with the best skills, personality and cultural fit for your needs. Our commitment to remain at the cutting edge of best practice allows you to benefit from the latest initiatives in recruitment, digital media and candidate attraction.

Whether you are seeking to recruit one key individual or an entire team, our expert consultants, administrators and welfare support resource provide a dedicated, personalised and premier service.

“ Our mission is to deliver solutions that help people to succeed and organisations to flourish, contributing to a better future for everyone... ”
